

TECHNICAL DESCRIPTION S800-Vor1_TB_EN - 07.11.2023 - www.vs-furniture.com

Serie 800 Preliminary remark – grid system.

Series 800 element cabinets are made from melamine-resin-coated chipboard with glue-on plastic or beech edge. Cabinets are available in 6 widths, 6 heights and 2 depths. One height grid (1FH) corresponds to 375 mm. Add-on cabinets are available 1, 2 and 3FH without [1] and with [2] base for a ladder rail to be installed (cf. table). In addition, many models (without technical built-in components) can be variably shortened in the width, height and depth dimensions in five-millimetre increments and thus built for a perfect fit in all room situations.

Top shelves are placed on the side walls and thereby form a cleanly structured top cover for low cabinets.

Cabinet fronts (2 cm) and further protruding parts such as handles for example are not taken into consideration in the depth specifications.

Erection: Models from a height of 197 cm or models with drawers and/or pullouts (DGUV Regel 108-007) must be secured to the wall or floor.

The following material groups are available to choose from: Front made of chipboard: L3; Body and bases made of chipboard: L6; Front veneered: F1.
