## Serie 800-Mobil

### Adjustable shelf inserts for shelf units and swing-door cabinets.

Adjustable shelf inserts are available in melamine-resin-coated chipboard and MFB board, each with glued-on plastic edges and made of powder-coated sheet steel. The shelf inserts can be freely positioned by means of shelf supports in the holes and secured against slipping out.

The following material groups are available to choose from: Body and bases made of chipboard: L6.
