## Pareto-Twin Dual workplace.

Design in accordance with DIN EN 527-1 consisting of two centrally positioned tubular steel cross-pieces and welded brackets.

Substructure consisting of two pairs of uprights made from powder-coated metal with round or square uprights with two cross-pieces made from rectangular tubing. Optionally available with side panel cover. Electrically-driven height-adjustment with two-stage telescoping uprights, optionally with display, memory, collision protection and child safety protection.

Tabletops made from melamine-resin, veneer or linoleum-coated chipboard with angled corners.

Electrical connections (optional) by means of a folding metal cable tray with round cable chain and a linkable cable trough for the joint cabling of both desks.

Cable outlet through a maximum of three metal outlets (left, centre, right) or a cable flap positioned on the left or right for each workplace.

Accessories for electrical connection (Schuko power socket) and CPU holder with retaining strap.

The following material groups are available: Frame made of steel tube: M2; Top made of chipboard: L6; Top made of linoleum: L8; Top veneered: F1.
