

**BASICS** AGR\_BW\_EN - 26.06.2013 - [www.vs-furniture.com](http://www.vs-furniture.com)

**Our quality standard:  
Tested & recommended by AGR.**

When it comes to much-used everyday objects such as school and office furniture it is essential that they conform to the medical requirements with regard to back-friendly products. The independent seal of quality "Geprüft & empfohlen" (Tested & recommended) of Aktion Gesunder Rücken e.V. provides the assurance that is required here. Aktion Gesunder Rücken e.V. is an association promoted by doctors and therapists which was founded in 1995 with the aim of promoting research into the avoidance of the common condition of backache and disseminating new research findings – and thereby helping to combat this widespread ailment.

The AGR seal of quality was developed in cooperation with the two largest German back care associations (Bundesverband der deutschen Rückenschulen e.V. and Forum Gesunder Rücken – besser leben e.V.). It is only awarded to products that satisfy the strict test criteria of an independent commission of medical and therapist
